

Emerson Waldorf School Report

By Viorica Comaniciu, read by Joanna Carey:

EWS is now accredited by both AWSNA and SAIS.

During the accreditation we put together an impressive self-study and strategic plan and now we are ready to put that plan into practice by setting specific goals and objectives for the coming year. One of our goals is to improve enrollment and retention. (All our strategic goals require significant increases in revenue, and at this point all that revenue comes from having more students.) The other one is to expand the high school building. Our new campus master plan was approved and soon the implementation of our construction projects will be presented to the community.

Hiring

In the midst of this work, EWS is looking for a new administrator since Steve Bennett is relocating. We are also in the process of hiring new teachers- all the positions are advertised.

Eurythmy

Christina Beck organized a successful and meaningful eurythmy performance for the school and the outside community with the help of many Branch members.

School Events

The end of the school year is a busy time for each grade- class plays, concerts, class trips. The seniors had a wonderful trip to Europe England and France. Their last play performance is today at 7:00 pm (Death Trap).For more events please check the school's calendar.

Gratitude for Teaching Support

Robert Mays is teaching chemistry to the seventh graders.

Martha Kelder introduced calligraphy to the sixth graders.

The EWS faculty recognizes the importance of the work of the branch and thanks their members for their contributions.
